In my analysis of Facebook users, did I...	Yes, because...	Not yet, but here's how you can make it better.
<ul style="list-style-type: none"> • draw an accurate graph including a statement of the domain and range in proper notation? 		
<ul style="list-style-type: none"> • determine the number of Facebook users correctly using the given function, and include a thoughtful discussion of the reasonableness of my answer? 		
<ul style="list-style-type: none"> • algebraically solve the equation and show my steps clearly? • consider the context of the question when stating my answer?
